**Chicago - The Great Teachers' Strike**

This multimedia show tells the inspiring story of the Chicago Teachers' Union's strike which successfully stalled a ruthless corporate onslaught on public sector education. Weaving together music, song and inspirational video footage and interviews, **Chicago** explores how the Chicago Teachers' Union empowered their members and mobilised parents, students and the wider community across the city. This production provides compelling lessons for both educational and broader public sector resistance in the UK and of the corrosive impact of the current education policies. It also explores ways to fight back for unions, students, parents and the wider community in the UK.
